One of our Face Shields in use by Dr H Gandhi at
The Wellspring Surgery in St Ann's, Nottingham

Who are we?

Nottingham Hackspace is a not-for-profit member-run workshop in St Ann's, Nottingham.

Members have been working day and night to produce Personal Protective Equipment (PPE) for the NHS and key workers to meet demand during the Coronavirus pandemic.

What do we produce?

Face Shields

Our team produce and laser cut face shields for key workers, including for clinical use at Nottingham University Hospitals.

Fabric Face Masks

Our volunteers sew fabric face masks for key workers in service and customer-facing roles.

How can I get involved?

Visit ppe.nottinghack.org.uk to:

- Request more PPE
- Donate to fund PPE production
- Donate to keep Hackspace running
